PROFILE

Full-stack developer with an outgoing personality, positive attitude, strong work ethic and an effective communicator. Organized with attention to detail, and the ability to work effectively with others and independently. A talent for developing innovative solutions to unusual and challenging problems by combining initiative and troubleshooting skills in a timely manner.

TECHNICAL SKILLS

Java, Python, C++, C#, Javascript, CSS3, HTML, MySQL, MongoDB, REST, GraphQL, Express, React, Redux, Node JS, JQuery, Handlebars, Bootstrap, tailwind, Vue JS, MUI, Maven, Springboot, IBM MQ, Oauth 2.0, RHEL 8, GitHub, Bitbucket, Confluence, Heroku, MongoDB Atlas

PROJECTS

GitFit | Deployment: gitfit-2.herokuapp.com/ | Code: github.com/nkrilis/GitFit-2.0

- ❖ GitFit is a React.js-driven application designed to discover and organize your workouts, track progress, and interact with users and trainers. Node.js and Express.js are used as the server-side framework, and data is handled by GraphQL, MongoDB and MongoDB Atlas.

Tech Blog | Deployment: nkrilis-tech-blog.herokuapp.com/ | Code: github.com/nkrilis/Tech-Blog

- ❖ Tech Blog gives a user the ability to view blog posts made by various users. When a user creates an account they will have the ability to create their own blog posts and comment on other users' blog posts. The user also has the ability to update their blog posts at any time through their dashboard.

iDrink | Deployment: nkrilis-tech-blog.herokuapp.com/ | Code: github.com/nkrilis/iDrink

- ❖ iDrink is a website where you can familiarize yourself with any alcoholic drink in the world. On this website, you are asked to enter your favourite drink and your favourite movie genre. Then the website will provide results with the ingredients and instructions for that particular drink with an image and Youtube link. Besides a movie suggestion according to the genre, you entered will be displayed. The APIs used for this application are from TheCocktailDB and Streaming availability.

EXPERIENCE

Software Engineer - TD Securities   2022 - Present

As a Software Engineer at TD Securities, I've played a pivotal role in advancing our settlements platform. Beyond implementing new features and maintaining code, I assumed leadership responsibilities as the lead developer, guiding new hires, and conducting thorough code reviews. Dictating the design of features and overseeing deployments for business testing, I also became one of the owners of this critical application, influencing key decisions. A standout accomplishment includes modernizing wire payments through a web application integrated with DTCC data, simplifying Standard Settlement Instructions retrieval. Leveraging a diverse skill set, I developed various solutions and enhanced user interaction and overall efficiency. Leading a 15-member team, I fostered collaboration and served as a developer lead, ensuring timely project delivery. My journey at TD

Securities reflects not only technical achievements but a commitment to collaborative growth, contributing to the success of our dynamic organization.

Lead Sales Representative - Rogers Communications   2016-2021
As a Sales Representative, I was responsible for providing an exceptional customer experience while solving complex issues. Alongside exceeding my sales metrics I was the technical expert at this store location. I would resolve all customer device issues whether it would be hardware or software related, and be able to educate the customer in a manner that they would understand. I was also trusted with the acting manager role where I would act as the manager when one was not available. I would resolve customer and employee issues in a professional manner alongside coaching and training employees on metric tactics and new products or software.

EDUCATION
Full Stack Web Development Boot Camp Certificate
University of Toronto, Ontario | 2022
A 12-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript ES6, JQuery, Node.js, MySQL, MongoDB, Express, Handlebars, React and Bootstrap.

Bachelor of Software Development
Seneca College, Ontario | 2021
